

EDUCATION & TRAINING

INNOVATION. EXPERTISE. EDUCATION WITHOUT LIMITS.

We believe the future of hairdressing and barbering education should be **innovative, individual and relevant to the people working in our industry today.**

That is why our **Private Education & Training programmes** are continually evolving. Rather than offering a fixed, one-size-fits-all programme, we create opportunities to learn around **your interests, your experience, your ambitions and the skills you want to develop.**

Whether you are looking to refine an existing skill, explore a new technique, prepare for a specific service, develop your creative work or bring your team together for focused education, we can work with you to create a training experience that is right for you. We already have a selection of **headline topics** available, but these are simply the starting point. If you have something specific in mind, we want to hear from you.

WHAT MAKES US DIFFERENT?

You influence the content

Education should be relevant. Tell us what you want to learn, where you want to develop and what you want to achieve, and we will shape the training around those needs.

Small, focused groups

We never have more than **8 learners** in a group. This allows our educators to give genuine individual attention, encourage discussion and respond to the needs of every person in the room.

Flexible by design

We understand that working professionals have busy schedules. Course days and times can be arranged to suit the group wherever possible, making professional development easier to access.

Education led by specialists

Every course is delivered by an experienced, recognised specialist in their field. Before your training begins, you will receive information about your educator and their professional experience, so you know exactly who you will be learning from.

High-quality education and resources

We believe exceptional education deserves exceptional products, tools and equipment. Our training is designed to give you access to professional knowledge, techniques and resources that can be applied confidently within your own working environment.

Investment in your future

Our courses start from **£150 per day, excluding VAT**, with pricing communicated clearly before you commit to your training.

EDUCATION BUILT AROUND YOU

Every learner arrives with different experience, strengths and ambitions. Our approach recognises that.

Alongside the essential knowledge and techniques within each subject, we take the opportunity to understand **what you actually want to achieve**. Training can then be adapted to explore the techniques, approaches and areas of development that matter most to you.

At the end of each session, we can also explore your **next steps** — identifying further education, skills or creative opportunities that could help you continue developing. Because education shouldn't simply end when the session does. **It should open the door to what comes next.**

EXPLORE. DEVELOP. CREATE.

Our current course ideas include:

Short Hair Cutting – Ladies · Long Hair Cutting – Men · Colour Techniques & Correction · Contemporary Perming · Hair-Up & Occasion Styling · Product Training · Collection & Editorial Work · Barbering Techniques · Precision Cutting · Curly Hair Cutting · Textured Hair · Smoothing & Strengthening

And if the subject you want isn't listed, **please ask**.

Your idea could become the next course.

EDUCATION FOR THE INDUSTRY. CREATED BY THE INDUSTRY.

The Collective exists for hairdressers and barbers, by hairdressers and barbers.

We believe in sharing knowledge, supporting progression and giving back to an industry that continues to inspire us.

There is no hierarchy in learning. Everyone brings experience to the room. Everyone has something to share. And everyone should feel respected, encouraged and welcome.

This is education with purpose.

Education with experience.

Education shaped by the people who work in our industry.

#longlivethecollective

WANT TO CREATE YOUR OWN COURSE?

If a group of **8 learners** shares an interest in a particular subject, our **Ambassador Team** can work with you to develop a focused training experience around exactly what you want to learn.

Tell us what you want to learn.

We'll help you create the education to make it happen.

please get in touch via our **Contact Us** section of our website.
